**The Head, Heart and Hands of Your Success  
Defined by YOU and only YOU!**

# Success?

- Do you recognize what YOU are good at and what energizes YOU?
- Do you fully utilize your most-enjoyed skills?
- Does your work further some interest or issue that you care deeply about?
- Do you see yourself, through work, as making a difference in the world?
- Do you view most days with a sense of enthusiasm?
- Have you developed your own philosophy of life and success?
- Are you taking the necessary risks to live your philosophy?
- Are you living your life to the fullest now instead of hoping that things will work out someday?
- Do you feel a sense of meaning and purpose for your life?
